2012-12-11 In the climactic conclusion to the Star Trek: Destinytrilogy the greatest menace to the galaxy, the Borg, were absorbed into the

Caeliar gestalt -- with one exception, Seven of Nine, who finds herself trapped in a half existence, neither drone nor human. Seven agrees to join Chakotay, the former captain of the USS Voyager, to rendezvous with the ships that Starfleet Command has sent into the Delta Quadrant and see if they can solve the mystery of the Caeliar's disappearance. In a region of space which has lived in fear of instant annihilation, Voyager is charged with reaching out to possible allies and resolving old enmities. But these are not the friendly stars of the Federation, and out here the unknown and the unexpected cannot be dealt with by standard Starfleet protocols.

about the Krenim Imperium and its ability to rewrite time to suit its whims. At Captain Chakotay's suggestion, however, she orders the fleet to focus its attention on a unique planet in a binary system, where a new element has been discovered. Several biospheres exist on this otherwise uninhabitable world, each containing different atmospheres and features that argue other sentient beings once resided on the surface. Janeway hopes that digging into an old-fashioned scientific mystery will lift the crews' morale, but she soon realizes that the secrets buried on this world may be part of a much larger puzzle—one that points to the existence of a species whose power to reshape the galaxy might dwarf that of the Krenim. Meanwhile, Lieutenants Nancy Conlon and Harry Kim continue to struggle with the choices related to Conlon's degenerative condition. A Pocket Full of Lies-

Kirsten Beyer 2016-01-26 An original novel set in the universe of Star Trek: Voyager from New York Times bestselling author Kirsten Beyer—and the sequel to Atonement and Acts of Contrition! The Full Circle Fleet has resumed its unprecedented explorations of the Delta Quadrant and former Borg space.

Commander Liam O'Donnell of the U.S.S. Demeter makes a promising first contact with the Nihydron—humanoid aliens that are collectors of history. They rarely interact with the species they study but have created a massive database of numerous races, inhabited planets, and the current geopolitical landscape of a large swath of the quadrant. When an exchange of data is proposed via a formal meeting, the Nihydron representatives are visibly shaken when Admiral Kathryn Janeway greets them. For almost a century, two local species—the Rilnar and the Zahl—have fought for control of the nearby planet Sormana, with both sides claiming it as

their ancestral homeworld. The shocking part is that for the last several years, the Rilnar have been steadily gaining ground, thanks to the tactics of their current commanding officer: a human woman, who appears to be none other than Kathryn Janeway herself...™, ®, & © 2016 CBS Studios, Inc. Children of the Storm-

Kirsten Beyer 2011-05-31 “YOU WERE TOLD NOT TO RETURN TO OUR SPACE.” Little is known about the Children of the Storm—one of the most unique and potentially dangerous species the Federation has ever encountered. Non-corporeal and traveling through space in vessels apparently propelled by thought alone, the Children of the Storm at one time managed to destroy thousands of Borg ships without firing a single conventional weapon. Now in its current mission to the Delta Quadrant, Captain Chakotay and Fleet Commander Afsarah Eden

must unravel why three Federation starships—the U.S.S. Quirinal, Planck, and Demeter—have suddenly been targeted without provocation and with extreme prejudice by the powerful Children of the Storm . . . with thousands of Starfleet lives at stake from an enemy that the Federation can only begin to comprehend. . . .

The Farther Shore-Christie Golden 2003-06-06 When an unstoppable Borg plague breaks out upon Earth, blame quickly falls on the newly returned crew of the Starship Voyager™. Did Kathryn Janeway and the others unknowingly carry this insidious infection back with them? Many in Starfleet think so, and Seven of Nine, in particular, falls under a cloud of suspicion. Now, with a little help from the Starship Enterprise™, Admiral Janeway must reunite her crew in a desperate, last-ditch attempt to discover the true source of the contagion and save Earth itself from total assimilation into a voracious new Borg Collective. But time is running out. Has Voyager

Star Trek: Voyager: Protectors-Kirsten Beyer 2014-01-28 While the U.S.S. Voyager sets off to a distant, unexplored region of the Delta Quadrant, Vice Admiral Kathryn Janeway, who recently endured a great trauma, undergoes assessment to determine if she can still lead the fleet.

Acts of Contrition-Kirsten Beyer 2014-09-30 An original novel set in the universe of Star Trek: Voyager—and the sequel to the New York Times bestseller Protectors! Admiral Kathryn Janeway has now taken command of the Full Circle Fleet. Her first mission: return to the Delta Quadrant and open diplomatic relations with the Confederacy of the Worlds of the First Quadrant, a civilization whose power rivals that of the Federation. Captain Chakotay knows that his choices could derail the potential alliance. While grateful to the Confederacy Interstellar Fleet for rescuing

the Federation starships from an alien armada, Voyager's captain cannot forget the horrors upon which the Confederacy was founded. More troubling, it appears that several of Voyager's old adversaries have formed a separate and unlikely pact that is determined to bring down the Confederacy at all costs. Sins of the past haunt the crew members of the Full Circle Fleet as they attempt to chart a course for the future. Theory #2: Fusion-Kirsten Beyer 2005-11-01 As the Cosmos Unravels The disruption in the space-time continuum caused by the creation of the "Blue Eye" singularity continues: Thread by thread, the fabric slowly frays and peels away, breaking down barriers between dimensions. As the lines between realities blur, the consequences cascade. A Sleeping City Awakes Voyager pursues Tuvok to a long-dormant space station, a place of astonishing grandeur and wonder. Ancient almost beyond imagining, the city seduces the crew with the promise that their greatest aspirations might be realized. Such promise requires sacrifice, however, and the

price of fulfilling them will be high for Voyager. A Mysterious Power Stirs Unseen sentries, alarmed by Voyager's meddling in the Monoharan system, send emissaries to ascertain Janeway's intentions. Unbeknownst to the captain, she is being tested and must persuade her evaluators that their contention -- that Voyager poses a threat to the delicate web of cosmic ecology -- is baseless. And failure to vindicate her choices will bring certain retribution to her crew.

to stand against them. The Borg were stopped, the price paid in blood. Humanity breathed a sigh of relief, assuming it was safe. And with the destruction of the transwarp conduits, the Federation believed that the killing blow had finally been struck against the Borg. Driven to the point of extinction, the Borg continue to fight for their very existence, for their culture. They will not be denied. They must not be stopped. The old rules and assumptions regarding how the Collective should act have been dismissed. Now the Borg kill first, assimilate later. When the Enterprise manages to thwart them once again, the Borg turn inward. The dark places that even the drones never realized existed are turned outward against the enemy they have never been able to defeat. What is revealed is the thing that no one believed the Borg could do.

in Star Trek: The Next Generation, takes command of the new USS Titan in this white-knuckled adventure perfect for longtime and new Star Trek fans. After almost a decade of strife against foes such as the Borg, the Cardassians, the Klingons, and the Dominion, the United Federation of Planets is at the dawn of a new era. Starfleet is renewing its mission of peaceful exploration, diplomacy, and the expansion of knowledge. Among the starships spearheading that endeavor is the USS Titan, commanded by Captain William T. Riker and manned by the most biologically varied and culturally diverse crew in Starfleet history. But their mission does not begin according to plan. In the wake of Star Trek: Nemesis, Praetor Shinzon, slayer of the Romulan Senate, is dead. The power vacuum created by his demise has put the Romulan Star Empire, longtime adversary of the Federation, at the brink of civil war. Competing factions now vie for control of their fragmenting civilization, and if the empire should fall, that entire area of the galaxy may

destabilize. To restore order to the region, Titan's long-anticipated mission of exploration is delayed as Starfleet assigns Riker to set up power-sharing talks among the Romulan factions. But even as the first tentative steps are taken toward building a new Romulus, the remnants of the Tal Shiar, the dreaded Romulan intelligence service, are regrouping behind the scenes for a power play of their own. With no other help available, Riker and the Titan crew become the last hope to prevent the quadrant from falling into chaos.

deep space, Captain Jean-Luc Picard and Captain Ezri Dax join together to cut off the Collective's route to the Alpha Quadrant. Half a galaxy away, Captain William Riker and the crew of the Starship Titan have made contact with the reclusive Caeliar—survivors of a stellar cataclysm that, two hundred years ago, drove fissures through the structure of space and time, creating a loop of inevitability and consigning another captain and crew to a purgatory from which they could never escape. Now the supremely advanced Caeliar will brook no further intrusion upon their isolation, or against the sanctity of their Great Work. For the small, finite lives of mere mortals carry little weight in the calculations of gods. But even gods may come to understand that they underestimate humans at their peril.

Star Trek: Destiny #3: Lost Souls-David Mack 2008-11-25
The third and final novel in an epic crossover trilogy uniting characters from every corner of the Star Trek universe, revealing the shocking origin

and final fate of the Federation's most dangerous enemy—the Borg. The soldiers of Armageddon are on the march, laying waste to worlds in their passage. An audacious plan could stop them forever, but it carries risks that one starship captain is unwilling to take. For Captain Jean-Luc Picard, defending the future has never been so important, or so personal—and the wrong choice will cost him everything for which he has struggled and suffered. For Captain William Riker, that choice has already been made. Haunted by the memories of those he was forced to leave behind, he must jeopardize all that he has left in a desperate bid to save the Federation. For Captain Ezri Dax, whose impetuous youth is balanced by the wisdom of many lifetimes, the choice is a simple one: there is no going back—only forward to whatever future awaits them. But for those who, millennia ago, had no choice...this is the hour of their final, inescapable destiny.
